## CLICHÉ | CYREL® NOW 2.84 MM

CLICHÉ 2.84 MM

03.2019

Description	
Cliché Type	Ozone resistant CYREL® NOW 2.84 mm
Use	Flexible packages   Bags Print on foil   Cardboard   Pre-prints
Characteristics	Cyrel® NOW is a universal plate for fine halftone, line, screen and solid printing of most printable materials. Cyrel® NOW has a wide exposure range during processing and extremely short drying times. In addition to alcohol-based and water-based inks, Cyrel® NOW is also compatible with UV inks and offers very good ink transfer and long press runs even during critical applications. The plate is very flexible and is suitable for even the smallest cylinder diameters. Cyrel® NOW is also available for continuous printing forms.
Color	Red
Strength	2.84 mm
